

### FSA K-Force Brakeset

FSBR400-1630

- Unique I-Beam structure
- Ratchet quick release lever
- Lightweight, compact dual pivot design
- Carbon fibre brake shoes
- Cold forged 6061 caliper arms
- Optimised geometry for powerful braking and superior modulation
- Thrust bearings at main pivot
- Titanium main pivot bolts
- Titanium cable attachment hardware
- Adjustable spring tension
- Orbital pad adjustment
- Made in USA multi-condition brake pads (Koolstop DL)

SIZE: 40-50mm reach

FINISH: Polished black hard anodized finish

WEIGHT: 278g (set)

### FSA SLK Brakeset

FSBR400-1620

- Unique I-Beam structure
- Ratchet quick release lever
- Lightweight, compact dual pivot design
- Alloy brake shoes
- Cold forged 6061 caliper arms
- Optimised geometry for powerful braking and superior modulation
- Thrust bearings at main pivot
- Titanium main pivot bolts
- Stainless cable attachment hardware
- Adjustable spring tension
- Orbital pad adjustment
- Made in USA multi-condition brake pads (Koolstop DL)

SIZE: 40-50mm reach

FINISH: Polished black hard anodized finish

WEIGHT: 302g (set)

### FSA ENERGY Brakeset

FSBR400-1505

- Unique I-Beam structure
- Ratchet quick release lever
- Lightweight, compact dual pivot design
- Alloy brake shoes
- Cold forged 6061 caliper arms
- Optimised geometry for powerful braking and superior modulation
- Thrust bearings at main pivots
- Adjustable spring tension
- Orbital pad adjustment

SIZE: 40-50mm reach

FINISH: Polished black hard anodized finish

WEIGHT: 315g (set)

### FSA GOSSAMER Brakeset

FSBR400-1600

- Lightweight, compact dual pivot design
- Cold forged caliper arms
- Optimised geometry for powerful braking and superior modulation
- Anti friction pivot design
- Rustproof cromoly hardware
- Orbital pad adjustment

SIZE: 40-50mm reach

FINISH: Polished silver or black hard anodized finish

WEIGHT: 354g (set)

### IRD Brake 57mm

A nice quality 57mm reach dual pivot caliper brake that offers more room for fenders and wider tyres  
 Our Smoothie ES is designed for this type of brake.  
 Works great for most 27" to 700c wheel conversions.  
 Includes cartridge brake shoes, form IRD.  
 \* Note these brakes will not work with frames designed for regular reach brakes e.g. Smoothie, Rush.  
 Front or Rear

### FSA SLK Cyclo Cross Brakeset

FSBR400-1700

- Unique open structure alloy arms
- Integrated barrel adjuster
- adjustable spring tension
- Stainless hardware
- One bolt pad adjustment
- Brake pad holder convenient to change pads between alloy and carbon rims

SIZE: 40mm alloy arms

FINISH: Black anodized SL-K finish

WEIGHT: 360g (set)

### Vision Drag On Aero brake lever set

VTBR670-3780

Fastest lever on the market

- New paradigm in aerodynamics and weight
- Ergonomic 2-Finger forged Lever blade
- Designed for single or dual pivot calipers
- Includes Vision Tech Drag On Brake Cable set.
- Weight 75grms pr

### Soma Urban Pursuit Levers

SMBR72790

- Works with tri / bullhorn bars.
- Forged alloy lever. Reach adjustable.
- Expanding plug design fits bar ID's from 19.6 to 20.6mm.

### Soma Urban Cross Levers

SMBR72809

Excellent for cross bikes or for any urban or touring bike where being able to brake from the top of your drop bars is desired. Works with your STI levers. Can also be installed alone as you might do on a track bike. Hinged clamp fits

- 26.0mm bars on the non-bulged section or
- 31.8mm bars.
- Slanted barrel adjuster. Light alloy construction.

### Soma Ergo-Style Levers

SMBR73024

A very nice lever.

Looks like Campy, but with out the price.

All black with a laser-etched Soma logo.

- Black or Silver

Two reaches:

- 81.9mm (Standard)
- 72.2mm (for smaller hands)

### Soma Versa-8 Levers

Versa 8 shifters designed for Shimano Alfine and Nexus 8 speed internally geared hubs

- Left side is brake only
- Comes with a cable and removable barrel adjuster at the shifter

## Yokozuna Brake and Gear Cables

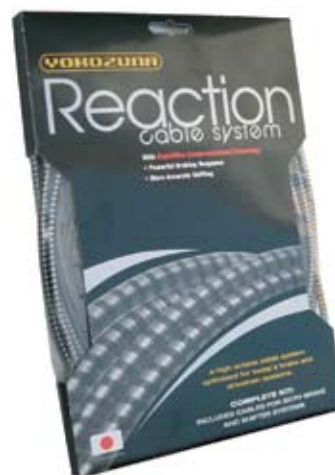

### REACTION® Cable System

Featuring RapidWire Compressionless Technology & Jet Lube Housing

A high-octane cable system optimised for today's brake and drivetrain systems. The special housing delivers excellent compressionless performance for enhanced cable response.

- Boost braking from road brakes to mechanical discs.
- Jet-Lubed for smooth cable action.

A COMPLETE KIT: Includes housing and cables for BOTH brake and shifting systems.

### Premium Cable & Housing Kit

Featuring Jet Lubed Housing

Our Jet Lube Process injects the proper amount of grease END2END... not just at the tips like the competition's pre-lubed housing. This results in about 10% less cable drag. Refresh your ride with this kit which includes housing and cables and ferrules. Available in black, silver, or SlickTech Gray (XTR-colour) for shifter (Shimano), road brake and MTB brake.

### Premium Stainless Steel Cables

What makes a cable better than another? High-grade raw materials, flexibility, strength, tightness of the construction and quality control. You will notice the difference when you upgrade to Yokozuna!

X-Mix is a specially developed composite made of sintered metal and \*kevlar® fibres.

**Advantages**

- Improved noise absorbtion
- Improved heat distribution
- Separate oscillation damping
- Improved bonding strength to back plate

\*Kevlar® is a synthetic fibre harder than steel. It combines high strength with low weight and excellent insulataion abilities. Kevlar® provides undisputed performance whenever high strength, low weight and insulation are important.

**Atomlab Hydraulic Disc brakes**

Pimp rear 160mm blk = ALBR1BRK200B

Pimp rear 160mm sil = ALBR1BRK200S

Pimp front 160mm blk = ALBR1BRK202B

Pimp front 160mm sil = ALBR1BRK202S

Atomlabs hydraulic disc brake designed for dirt jumping, slopestyle and freeride.

- Front or rear available
- Rear available with pre-installed Atomlab hydro twister
- Black/red or silver/red colours available
- Uses temperature resistant DOT 4 fluid
- 74mm post. Adapters for 51mm and larger rotors are available.

**Atomlab Hydro Twister Hydraulic Gyro**

ALBR1BRK360B

Atomlabs hydraulic detangler allows you to to all the barspins and tailwhips you desire with your hydraulic disc brake. Also available in complete rear brake kit

Pimp rear w' gyro 160mm blk = ALBR1BRK201B

Pimp rear w' gyro 160mm red = ALBR1BRK201R

- CNC machined
- 28mm stack height
- Works with standard hydraulic hoses
- Black with laser etch finish
